

We are a young company with locations in Belp, Sion, and La Chaux-de-Fonds. The core competencies of our EASA Part-145-certified organization lie in the areas of maintenance, avionics, components, and composite repairs.

As an Authorized Garmin Dealer, we work with state-of-the-art avionics technology and offer exciting projects involving high-quality aviation electronics.

To expand and strengthen our teams in Belp and Sion, we are looking for you as:

Certifying Staff B2 (Airbus, Bell, Leonardo)

Work location: Belp and/or Sion

Workload: 80–100%

Your Responsibilities:

- Performing maintenance, repair, and modification work on aircraft
- Troubleshooting and resolving malfunctions in avionics and electrical systems
- Conducting system tests and maintaining documentation in accordance with aviation regulations
- Working closely with Engineering, CAMO, and Maintenance
- Helping to set up and design the new avionics workshop at the Belp

Your Profile:

- Holder of an EASA Part-66 Category B2 license
- Several years of experience in aviation maintenance (line or base maintenance)
- In-depth knowledge of avionics systems and electrical systems
- Ability to work independently, in a structured manner, and with a sense of responsibility
- Team player, ready to take on challenges—and eager to help build something new
- Proficient in German or French, with strong technical English skills

What we offer:

- Exciting and varied assignments in the aviation sector—both domestically and internationally
- Working with state-of-the-art Garmin avionics technology
- A modern work environment in a growing company
- Competitive compensation and genuine appreciation
- Flexible work options and career development opportunities

Interested in a new challenge?

We look forward to receiving your complete application by July 31, 2026. Please send it via email to jobs@camro.ch.
